Dilan Sachintha Nayanajith Mapalagama Manage

has successfully completed the online Specialization

Certified Kubernetes Application Developer (CKAD)

This certificate is awarded in recognition of the successful completion of the comprehensive module on Kubernetes fundamentals. The recipient has demonstrated proficiency in understanding containerization, managing container images, and deploying applications using Kubernetes. Additionally, they have acquired practical skills in setting up and configuring a Kubernetes lab environment, showcasing their readiness to apply these concepts in a professional setting.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
